

PRESIDENT: Senator Luedtke.

SENATOR LUEDTKE: Mr. President, I ask unanimous consent that LB966 be advanced to E & R for Review. This was a Judiciary Committee which was requested that we introduce because of the fact that there was some question as to the time the revocation suspension of a motor vehicle's license on fines of a convicted individual when there is a fine paid on the installment plan. As you know, we passed a couple of years ago, because of a Supreme Court opinion, we had to have.... provide for defendants the right to pay fines on the installment system. And as a result of this, we did not specify in this particular statute 2206 win that judgment of conviction....would so provide that there actually be an effective day of judgment. And that's what this sets forth and it makes it so that the court knows when that judgment will be set forth.

PRESIDENT: Any objections to the unanimous consent motion? To advance LB966? LB966 is advanced. LB903.

CLERK: Mr. President, Senator Cavanaugh is absent.

SENATOR CARPENTER: LB731 and LB814.

PRESIDENT: Next bill's LB1015.

CLERK: Senator Fellman wants recognized.

PRESIDENT: Senator Fellman.

SENATOR FELLMAN: Mr. President, this bill is a result of an interim study committee set of hearings over the summer and makes relatively minor changes in the divorce law of Nebraska. And adds a provision for collection of child support that is overdue and unpaid by a payroll deduction. The committee amendments merely make this optional rather than mandatory. It was a mistake in the original drafting and the two amendments merely make the child support provision an optional provision that can be put into effect by the court in the proper situation. I move the.....

PRESIDENT: Senator Fellman, just a moment. Read the title of the bill. Is there anyone who wishes to object to the bill? Senator Kelly?

SENATOR KELLY: Mr. President, I'd ask that we pass the bill.

PRESIDENT: Okay. LB1015 is passed over. Next bill's LB921.

CLERK: Read LB921. There are committee amendments, Mr. President.

PRESIDENT: Senator Kremer.

SENATOR KREMER: Mr. Chairman and members of the Legislature. Senator Luedtke may want to explain further the provision of LB921. It allows for the shifting of weight on over, on an overload at a state scales. Now what the committee amendments do, they provide for a graduated fine, based on the amount of excess weight that's carried. Also to include if there's an excessive amount of mud that's carried because the truck is traveling over muddy roads, etc. But the committee amendments basically do, they provide for a graduated fine that's based on the amount that the truck is overloaded at the scales. I move for the adoption of the committee amendment, Mr. Chairman.

PRESIDENT: Senator Luedtke, did you wish to explain them further?
